EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Louis Bachand on September 1, 2005.

The application has been amended as follows: In claim 11, line 7 replace (least one of said apertures engages said saddle portion) with the saddle portion engages and supports one edge of at least one aperture.

Applicant's election with traverse of invention II (claims 11-16) in the reply filed on 27 August 2004 is acknowledged. The grounds for traversal was not stated and is therefore treated as an election without traversal. The requirement is still deemed proper and is therefore made FINAL. By examiner's amendment, claims 1-10 and 17 are canceled.

Allowable Subject Matter

In accordance with examiner's amendment above, claims 11-16 are allowed.

The following is an examiner's statement of reasons for allowance: it is new and unobvious in the art, to support the airfoil portion of a kite by engaging the saddle portion of a connector with the edge of an aperture in said airfoil.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
